To whom it may concern,

Allow me to express my cordial greetings, my name is Julio César Asto Machuca; a technician who graduated with a superior degree in Web Development and Programming from the Universitat Oberta de Catalunya, professionally focused on Web development and software development with FullStack specialization.

I am writing to you to apply for a vacancy in your prestigious company. As you can see in my resume, I am a young software developer, with 4 major projects of experience, where above all I highlight my knowledge in:

- Software Architecture.
- JAVA + SpringBoot + JPA + Hibernate + JQuery.
- JAVASCRIPT + NodeJS + ExpressJS + NPM APIs.
- HTML5 + CSS3 + Bootstrap + HTML5 API's and other APIS.
- Angular + ReactNative + native and community API's.
- MySQL (Workbench, PhPmyAdmin and commandLine).
- Firebase | MongoDB.

My interest in requesting an interview with you is due to your career path, which is so close to my personal goals; the opportunity to work with an experienced and highly professional team; the guarantee of learning by being part of and getting involved in a real project with my solutions and contributions; and of course, the opportunity to grow my career with you in the future.

That is why I would like to reiterate my great desire to be able to arrange an interview and be able to introduce myself to you and get to know you in person.

Very sincerely,
Julio César Asto Machuca

JULIO CÉSAR ASTO

Software developer

ABOUT ME

I am a young full-stack web developer but enthusiastic about software development.

I started my career in 2020 and since then I have not been able to stop learning. I am passionate about Software Architecture, design patterns and mounting exciting projects with my teammates.

My dream is to be able to find my own software solutions service.
